CERTIFICAT DE NIVELL C1

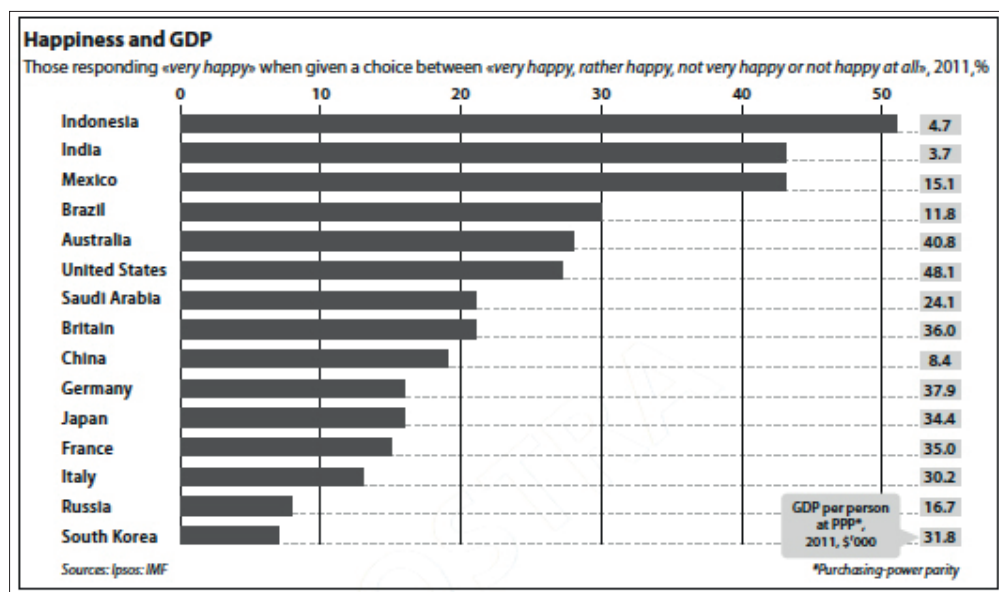

Please complete both Task 1 and Task 2.

Task 1

The statistics below illustrate the degree of self-perceived happiness in various countries as well as their wealth in terms of GDP (Gross Domestic Product) per capita.

Consider the figures and explain what they tell us about the relationship between wealth and happiness, as well as what they reveal about the people and the countries they live in. Write a text of about 175 words analysing the data and drawing conclusions from them.

Only mention the figures if needed to support your arguments.

Task 2

The idea of a paperless society has been talked about since the 1970s. Professor F.W. Lancaster, who coined the phrase, expected its arrival by the end of the 20th century. However, we still use millions of reams of paper every day, though a significant decline in the use of paper is now being seen at least in the home printer industry.

Write about 250 words to discuss the question of whether a paperless society is a feasible reality in the near future.

Task 1

Lined writing area containing a large diagonal watermark reading 'MOSTRA'.
